***Examiner's Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Referring to claims 1-20, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, performing error diffusion operation on a first scanline to obtain  $n$  error values, deriving  $m$  error values from  $n$  error values ( $m < n$ ), storing  $m$  error values in an error buffer, and processing a second scanline according to an error diffusion operation using values selected from the  $m$  stored error values.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Cited Art***

The art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art discloses various approaches for reducing the storage capacity needed for the error diffusion process, but not as claimed by applicant.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott A Rogers whose telephone number is 571-272-7467. The examiner can normally be reached Monday through Friday 6:00am-2:00pm.
